Holiday Gifts to Syrian Refugees

Due to the civil war conflict in Syria, more than 11 million people have been killed or forced to flee their homes. No food or medical helps for the remaining residents.

According to the U.N., it will take \$7 billion to meet the urgent needs of Syrian refugees and children.

The majority of the population fled to neighboring countries such as Jordan, Turkey, Greece, Lebanon, and Europe. However, many also perished at sea, yearning for hope and being rescued by someone.
