

Compassionate Service Society

CHARITY

Covid-19 Pandemic

At the beginning of the pandemic, when PPE was running short for all public health institutions in the US, CSS was able to provide PPE for them.

When the need for face masks arose for everyone in the community, CSS members across the US and Canada joined forces, produced around 30,000 fabric face masks, and gave them out to the communities.

In 2022, we are still donating disposable face masks and hand sanitizers to the community, even in Southeast Asian countries.

TOTAL PPE DISTRIBUTED

35,225
SURGICAL MASKS

28,360
N95/KN95
RESPIRATORS

4,002
